

Request for Proposal — Programmatic Yield Management & Revenue Analytics Partner

Meridian Press Group | Issued June 2026 | Responses due July 10, 2026

Meridian Press Group, a digital publisher network operating 40+ content sites across news, lifestyle, and gaming verticals, invites qualified publisher technology vendors to respond to this RFP for a yield management and revenue analytics partner. Please answer each numbered question completely and concisely.

Section A — Company & Platform

1. Provide a brief overview of your company, including founding year, headquarters, funding model, and client base.
2. Describe your revenue analytics capabilities, including data granularity, reporting latency, and the revenue sources covered.
3. Describe your header bidding wrapper capabilities, including client-side and server-side options.
4. Describe your dynamic flooring approach and which channels it supports (e.g., GAM, Amazon, Prebid).

Section B — Optimization & Data

5. Describe your traffic shaping capabilities and the benefits for publishers and SSPs.
6. What A/B testing and experimentation capabilities does your platform offer?
7. How does your platform address identity and cookieless readiness?
8. Describe your ad quality and malvertising protections.

Section C — Operations & Compliance

9. Describe any sustainability or carbon-reduction initiatives related to your technology.
10. Describe your SOC 2 certification status and most recent audit results.
11. Describe your onboarding and integration process, including the technical effort required from our team.
12. Provide your standard pricing model and minimum requirements.
